The screenshot displays a database management tool interface with a dark theme. The top bar includes a home icon, the name 'Fatima', and a toolbar with various icons. Below this, there are tabs for 'Administration', 'Schemas', and 'Untitled\*'. The left sidebar is divided into three sections: 'MANAGEMENT' (containing links like Server Status, Client Connections, Users and Privileges, Status and System Variables, Data Export, and Data Import/Restore), 'INSTANCE' (containing Startup / Shutdown, Server Logs, and Options File), and 'PERFORMANCE' (containing Dashboard, Performance Reports, and Performance Schema Setup). The main area on the right shows a SQL editor with a 'Limit to 1000 rows' button and a list of SQL queries numbered 1 through 21. The queries are as follows:

```
1 Create table students(  
2   ID int,  
3   StudentName varchar(45) NOT NULL,  
4   department varchar(45),  
5   PRIMARY KEY (ID)  
6 );  
7  
8 ALTER TABLE students  
9 ADD GPA dec(3,2);  
10  
11 ALTER TABLE students  
12 ALTER GPA SET DEFAULT '2.00';  
13  
14  
15 ALTER TABLE students  
16 DROP COLUMN GPA;  
17  
18 DROP table students;  
19  
20  
21
```
